

## Hawk Technology, Inc. Acquires United Craftsmen, Ltd

---

### FOR IMMEDIATE RELEASE

Rock Island, IL, January 8, 2014  
Hawk Technology, Inc. ("Hawk") announced today that on December 31, 2013, it acquired United Craftsmen, Ltd. ("United Craftsmen").

Hawk is a leading designer and manufacturer of tooling, fixtures, robotics integration solutions, vision inspection systems, and other customized automated solutions which are utilized in a variety of manufacturing settings.

United Craftsmen is a leading manufacturer focused on precision automation sub-assemblies, expendable (perishable) tooling and short run milling and turning.

"Hawk is excited about bringing these two great companies together. United Craftsmen is an important supplier to Hawk, and we see tremendous synergies by putting our two companies together. We look forward to the continued growth of the combined business," said Josh Clare, CEO of Hawk.
