

## Hawk Technology Celebrates Multi-Million Dollar Expansion Investment

---

**FOR IMMEDIATE RELEASE**

**Rock Island, IL, October 2015**

(Quad Cities) - Hawk Technology will host an open house on Thursday October 29, 2015 holding tours from 1-3 pm, a cocktail hour will start at 2:30 with a beer serving robot, and the ribbon cutting will take place at 4:00 p.m. Hawk is celebrating its multi-million dollar expansion investment in its facility at 8080

Centennial Expressway in Rock Island. This announcement comes less than one year after Hawk

Technology's announcement of ALM Positioners, Inc (ALM) acquisition to manufacture a branded line of welding and assembly positioners for blue chip manufacturers and distributors.

Hawk Technology added 24,000 square feet to their existing facility. This project will support the company's expanding market share and product lines.

"Hawk Technology Ltd is proud to announce this state of the art facility expansion, we are fortunate to be a part of the Quad Cities and all it has to offer our company," says Joshua Clare, President, Hawk Technology Ltd. "Great employees, sound government leadership, and a regionally located customer base have all contributed to our success and growth in the national market. This expansion marks yet another milestone in our growth, we look forward to continuing our long standing success in this marketplace.

"The Quad Cities Chamber began working with Hawk Technology in 2013 when company leadership shared their plans to grow and expand a product line," says Paul Rumler, Chief Economic Development Officer, Quad Cities Chamber. "The Quad Cities Chamber, along with the City of Rock Island and other partners, worked closely with Hawk Technology to advance this project. We're excited to see this leading robotics integration firm expand in the Quad Cities."

"I want to thank Joshua Clare, President of Hawk Technology for their commitment to Rock Island," says Rock Island Mayor Dennis Pauley. "Hawk Technology is a fast

growing, technology oriented business with a state of the art facility meeting the robotic needs of numerous companies. Hawk Technologies recent expansion adds to Rock Island's ever growing technology manufacturing base."

Hawk Technology started in 1994 as a design-only company and expanded to design and build by the early 2000's. Now the company has evolved into a state-of-the-art robotic integration and tooling solutions business and serves domestic, international, and military manufacturing firms. Hawk Technology provides a full range of services in the manufacturing cycle, from design to development of tooling, robotic, and consumer products.
